WHY SMBVT?

INDEPENDENT

Each story is self-contained and does not have any connections with other knowledge bases.

COMMERCIAL

The most popular tool is a commercial one, while the available alternatives are not performing as effectively.

CODING SKILLS

Implementing a story map requires coding skills for the majority of the tools.

SMBVT FEATURES

A semantic knowledge base that automatically interconnects all stories.

SEMANTIC WEB TECHNOLOGIES

A simple interface to build stories that can be visualise as timelines and story maps
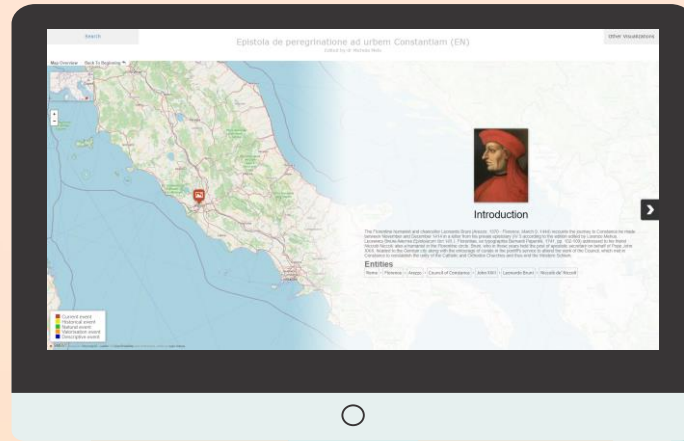

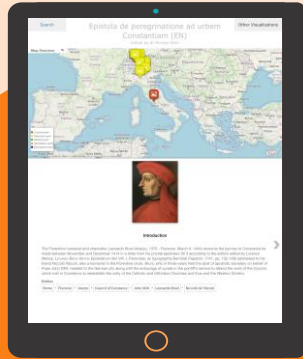

USER FRIENDLY
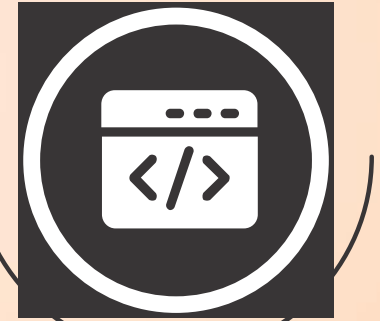

LINKED OPEN DATA

The knowledge base is published as Linked Open Data

FREE & OPEN SOURCE

A completely free-to-use Web tool using Wikidata as reference KB

SNEAK PEEK

THANK YOU!

I'm really looking forward
to seeing you
at the demo!
